

Take a Look at the New Look!

Within the coming weeks, Southeastern's website will have a new more modern and easy to use look! We will offer the same excellent applications while making it easier to read and access. Here are a few of the upcoming improvements:

- **Page sizes to your preference**
 - Pages and fonts automatically resize based on your preferred browser size.
- **Easy to find options**
 - Options have been regrouped to be more intuitive.
 - A Search Box has been added to assist in finding any page or content.
- **Easy access to the most used applications**
 - Tracing, View POD/BOL, and Routing Guide remain on the home page for quick reference and do not require a secure sign-in.
 - Rate Quotes have been added to the main page due to very high activity; MySEFL login is required for access for security reasons.
- **Breaking News is front and Center**
 - We will continue to keep you apprised of any special events, awards, weather, or new features that may affect you.

In other words, we are having a “facelift” which should improve your access speeds while making things easier to read. Enjoy!
