SUPERBOWL LIV IMPACTED ZIP CODES

Miami will host Super Bowl LIV at Hard Rock Stadium on Sunday February 2nd, 2020. While the Super Bowl on February 2nd will last just a couple of hours, Super Bowl events will be spread out over an entire week which will heavily congest the Miami and Fort Lauderdale markets. Downtown Miami and several areas in South Florida can expect service delays starting on Thursday January 30th that will last until Monday, February 3rd.

Our impacted service centers (FTL and MIA) are working closely with our customers in an effort to minimize service delays. We have also created operational plans that will help us maneuver around the city during less congested time frames.

We will be updating our website with zip codes for the impacted areas, as well as limiting Guaranteed Service Shipments on specific dates. Here's a listing of the impacted cities and zip codes.
